

TAKE CONTROL OF YOUR REVENUE

A game changing solution for Pharmaceutical Revenue Management, EmpowerRM is breaking the mold of chargeback processing and revenue management. With scalable automated processing, our software does the heavy lifting and allows you to focus on growing your business.

100% WEB-BASED. BUILT ON THE MOST ADVANCED WEB TECHNOLOGIES THAT EXIST TODAY.

OUR SOLUTIONS

CONTRACT MANAGEMENT

Easily manage all of your contracts with wholesalers, retail chains, and GPO's. Keep full price history of each product on each contract for reporting and chargeback processing.

CHARGEBACK PROCESSING

Automate your chargeback processing end to end with seamless accounting integration. Create rules to handle recurring issues automatically. Reduce processing time and focus on driving more revenue.

OUR CUSTOMERS

PHARMACEUTICAL MANUFACTURERS

We work directly with manufacturers to enable them to take control of their revenue management and get setup as quickly as possible.

PHARMA 3PL'S

Many manufacturers use 3PL's and also want them to do chargeback processing. We offer a solution specifically for this purpose and allow you to provide these services to your customers.

OTHER

Government pricing companies and pharma consulting firms can also use our software to provide additional services to their customers.

WHY EmpowerTM RM ?

Designed from the ground up by industry experts, our system is built to streamline your operations and mitigate risks.

ERP INTEGRATION

Seamlessly integrate with your accounting system to create credit memos and invoices. Synchronize direct sales data from invoices for reporting and forecasting.

AUTOMATION

EmpowerRM automates your chargeback processing from end-to-end. Minimize the manual intervention to deal only with new exceptions. Automate report generation and delivery.

RULES ENGINE

Create a rule to handle recurring exceptions to avoid unnecessary processing time. Use the rules engine to create custom validations to flag chargebacks.

ANALYTICS & FORECASTING

Built-in interactive dashboards allow you to gain insights into your data to make better business decisions. Forecast inventory levels at your customers warehouse and contract performance.

CUSTOMER PORTAL

Allow your customers to have view-only access to their respective contracts. They can export the latest pricing whenever they want.
